

SD-WAN PERFORMANCE PACKAGES

Optimize your ELFIQ SD-WAN Experience with Flexible Subscription Options

The ELFIQ SD-WAN suite combines flexibility and performance into scalable solutions that deliver powerful and cost-effective networking for small and medium enterprises.

We offer three Performance Package subscriptions with additional features that tailor the ELFIQ SD-WAN experience to fit specific customer use cases.

The QEX License (Quality of Experience) offers single-link traffic optimization through App Optimizer, the company's Layer-7 traffic-shaping (Deep Packet-Inspection/DPI) engine, Intelligent Condition Verification and other advanced features.

The BCX License (Business Continuity Experience) leverages ELFIQ's popular bandwidth management, path selection and link failover features for optimal connectivity and Cloud access.

The SDX License (Software-Defined Experience) encompass ELFIQ Central's most powerful visibility and control features, as well as FMR Hybrid WAN topology, and the STREAM VPN and Edge Firewall modules.

ELFIQ SD-WAN FEATURES

Features	QEX	BCX	SDX	EDGE SERIES
Deep-Packet Inspection (DPI)	•	•	•	•
ELFIQ Slice	•	•	•	•
Quality of Service Features	•	•	•	•
ELFIQ Probe	•	•	•	•
Intelligent Condition Verificator	•	•	•	•
Internet Service Verificator		•	•	•
Outbound Traffic Optimization		•	•	•
Inbound Traffic Optimization		•	•	•
Link Aggregation		•	•	•
LAN Failsafe/Bypass		•	•	•
SitePathMTPX Site-to-Site Acceleration		•	•	•
SSL VPN Support		•	•	•
Flex Multipath Routing Hybrid WAN			•	•
SLA Inspector			•	•
STREAM VPN Unlimited meshing			•	•
Stateful Firewall			•	•
Session Guard DoS Protection			•	•

Performance (Out of the Box)	QEX	BCX	SDX	EDGE SERIES
Maximum Throughput	100Mbps	100Mbps	100Mbps	1Gbps
Number of Sessions	64,000	64,000	64,000	512,000
LTE/4G/3G Support	•	•	•	•
Number of ISP/links	1	2	2	32
Remote Sites Supported		100	100	1000*

Hardware Edge Series	EDGE SERIES
100/1000 Interfaces	•
SFP Interfaces	•
Onboard Cellular Modem	•

* For deployment over 1000 sites, we recommend that you talk with our network architecture team.
